

FOR IMMEDIATE RELEASE

April 15, 2015

GYG Summit 2015

Gallatin Gateway, MT- The **GYG Summit on the Environment** will be held at Ted Turner's Flying D Ranch on April 21 at 9:30 a.m. The summit's goal is to raise awareness to the community about soil by teaching local students. As declared by the UN Food and Agriculture Organization, 2015 is the Year of Soil. Soil, in many cases, is overlooked in everyday society circles. Yet, as most know, it is a capstone for all food production. A great group of professionals has been invited to speak at this event, including:

- Dr. Tony Hartstorn -- MSU Soils Professor
- Mark Vander Meer – Watershed Consultant
- Eva Muller – NRCS Soil Regional Director
- Kevin Kapperman – FWP Fisheries Biologist

Seventh and eighth grade-students will be able to test soil for properties, understand the cultural impacts of healthy soil, and learn the relationship between soil and our local fish and game.
