5th Graders Present Bronzed Museum

This fall, each fifth grader has chosen a native Montana animal to study by developing a research report, designing a presentation board, and creating a sculpture of the animal.

These fascinating reports and displays will be presented to our community and school next week.

We would like to invite you to attend our Bronze Museum on Thursday, December 5, 2013. At this event, students will showcase their work, present their research, and discuss their projects from 12:45-2:45 pm.
