

# Gallatin Gateway School Partners In Education (PIE)

**Who we are:** A partnership of community members, parents, teachers, administration and students working together to provide educational opportunities for GGS students.

**What we do:** Coordinate, promote and contribute to various programs and activities that involve GGS.

**Our goals:** To be able to financially support educational programs and student opportunities through a minimal amount of fundraising, thus allowing more parent volunteer time in the classroom and around the school when needed.

**In order to maintain and continue to give the support to GGS that PIE has been doing for the last decade, parent volunteer help is in desperate need! The following programs are sponsored or organized through PIE and need your support:**

- School Yearbook
- Holiday Wreath and Butterbraid fundraiser(monies raised fund student activities)
- Christmas program decorations
- School staff appreciation day
- Last day of school celebration activities
- Providing volunteer help as needed in the school
- Maintaining the Smith's, Target Visa and other school reward programs

If you are interested in volunteering your time towards any of the above programs, we would appreciate hearing from you. Please send an email or give a phone call to the contacts below.
